## ABOUT ME

After finishing high school I decided to start my university life as a student of a health career, since from a very young age I had a fascination for medicine. After graduating as a Surgical scrub technician and nurse circulator, I decided to put my knowledge to the test in the workplace. I am looking for the possibility of developing myself within a professional team and gaining more experience in the profession that I am so passionate about.

While I was doing an internship in hospitals, my interest in programming began and the idea of being able to create my own web pages or applications and that these can be useful to other people, I made the decision to study and acquire the knowledge to become a programmer.

I am very organized, strict and meticulous with my work; I like to complete the tasks in the required time and to do them to the best of my ability giving my best effort and knowledge. I try to understand, be patient and listen to the people around me and with whom I work, to make them feel comfortable and at ease with the service I offer. Thanks to all my experience, I am not afraid to learn new things, on the contrary, I like to investigate and broaden the knowledge I have acquired both in my career and at work.

## EDUCATION

## WORK HISTORY

### March 2020 – December 2020

**WORK POSITION: Surgical scrub technician/surgical assistant**

**SURGERY IN GYNECOLOGY, PLASTIC AND TRAUMATOLOGY OF THE UPPER LIMB**, I worked with a surgeon as surgical scrub technician and surgical assistant.

I also covered general guards and childbirth guards (they were for practice, they did not pay me anything)

### January 2021 – October 2022

**WORK POSITION: Surgical scrub technician/ administrator/supervisor**

**I worked in "JUST PELO RECUPERACIÓN CAPILAR EN TRATAMIENTOS CAPILARES"**, the functions that I fulfilled were:

- ✚ Customer service performing Mesotherapy and platelet-rich plasma treatments (I performed the extractions and application)
- ✚ Sale of the products and services that the company offered
- ✚ Reception of the patient controlling payments and scheduling next shifts
- ✚ Premises maintenance
- ✚ Order and control of stock and medical supplies
- ✚ Supervision of premises and employees
- ✚ Provided training to new employees
- ✚ I improved the registration system that this beauty center had by creating spreadsheets, so that there was better control and monitoring (thanks to the knowledge I acquired about using Excel and Word)

### October 2022 - Present

**WORK POSITION: Freelancer**

Immersed in digital marketing, I am dedicated to selling digital products (online courses) through social networks using organic and payment methods. To carry out this task I use Canvas, video editing, chatGPT and I am in charge of creating teaching materials to share with users interested in the courses.

## OTHER DATA OF INTEREST

- **ENABLED PROFESSIONAL REGISTRATION, BOTH NATIONAL AND PROVINCIAL.**
- **Knowledge of** PACK OFFICE (Word, Excel, Outlook...) and Windows Operating System.
- **Knowledge of SPANISH** (native), ENGLISH (intermediate) and ITALIAN (currently learning)
- **I obtained** Italian citizenship with valid passport in July 2023.
